How to Place an Order

STEP 1 General Shade Information

Color Number
Color Description

STEP 2 Stack Options

One Way, Right or Left
Dual Stack
Center Stack
Reverse Stack (available on cord/chain only)

STEP 3 Options and Upgrades

The following options may be available. See individual price page information for detailed availability.

Cordless Wand Control
Cord/Chain Control
BackStacker®
Valance Upgrade
Extension Brackets

STEP 4 Mount Type and Shade Measurement

See page 4 for measurement instructions.

Inside or Outside Mount
WIDTH first, then HEIGHT

STEP 5 Quantity of Shades Being Ordered

STEP 6 Delivery Information

Indicate ship to address

STEP 7 Purchase Order Number

How to Measure

NOTE: Smallest unit of measure is $\frac{1}{8}$ ". Shades installed on windows near wall or baseboard heaters must clear the heaters by 12" above and 6" to the side.

Inside Mount (IM) Installation - Patio Doors and Windows

To find width: Measure the opening across the top where the headrail is to be installed from inside of window frame on left to inside of window frame on right. Round the measurement down to the nearest $\frac{1}{8}$ ". A minimum depth of $2\frac{7}{8}$ " is needed to install inside the patio door or window.

To find height: Measure from the inside top of the opening on the left, at the center, and on the right to the sill; round the measurement down to the nearest $\frac{1}{8}$ " and note the smallest dimension. Do not make any allowances: the factory will make all adjustments so the headrail will fit the opening properly and the vanes will clear the sill by $\frac{1}{4}$ " to $\frac{1}{2}$ ".

Outside Mount (OM) Installation - Windows

To find width: Measure the width of the area to be covered at the place where the headrail will be installed to the nearest $\frac{1}{8}$ ". Shade should overlap opening at least 4" on each side to ensure privacy. To maintain the maximum view, allow adequate overlap, and consider the stack width. To calculate stack dimensions, consult the Vane Count and Stacking Chart on page 14.

To find height: Measure the height of the area to be covered and round down to the nearest $\frac{1}{8}$ ". Shade should extend at least 3" above and 3" below opening or window frame. For installations ceiling to the floor, make adequate allowance for carpeting. Specifying OM measurement means the factory makes no allowances.

Outside Mount (OM) Installation - Patio Doors

To find width: Measure the width of the area to be covered at the place where the headrail will be installed to the nearest $\frac{1}{8}$ ". Shade should overlap opening at least 4" on each side to ensure privacy. To ensure easy access through the door and allow adequate overlap, consider the stack width. To calculate stack dimensions, consult the Vane Count and Stacking Chart on page 14.

To find height: Measure the height of the area to be covered and round down to the nearest $\frac{1}{8}$ ". Shade should extend at least 3" above opening or window frame. For installations ceiling to the floor, deduct $\frac{1}{2}$ " for proper clearance. Specifying OM measurement means the factory makes no allowances.

NOTE: Outside Mount installation with required overlaps on top and side of window/door will minimize light gaps and provide better room darkening for Ambiance™ Room Darkening Sheers compared to inside mount option.

Extension Brackets - Extends from 2" to 4"

Recommended for outside mount only when an obstruction protrudes beyond the window, such as window cranks and other mechanisms. Extension brackets are adjustable. Must request at time of order. See pages 16-17 for part number.

Critical Dimensions

HEADRAIL DIMENSIONS AND INSTALLATION DEPTH REQUIREMENTS

Headrail is 1 $\frac{1}{8}$ " deep x 1 $\frac{1}{2}$ " high.

Minimum Depth to Install (Headrail will protrude)	Inside Mount	2 $\frac{7}{8}$ "
Flush Mount Headrail	Inside Mount	3 $\frac{1}{2}$ "
Flush Mount Vanes and Fabric Folds (Pleats)	Inside Mount	6 $\frac{1}{4}$ "
Flush Mount Channel Valance	Inside Mount	4 $\frac{1}{8}$ "
Flush Mount Fabric Wrap Valance	Inside Mount	5 $\frac{1}{2}$ "
Minimum Clearance from Wall/Window to Headrail	Inside and Outside Mount	2 $\frac{3}{4}$ "

ESTATE™ VALANCE CLEARANCE FOR OUTSIDE MOUNT

The Estate Valance with finial requires 7" of clearance for the finial past each end of the headrail or 1 $\frac{1}{2}$ " of clearance for the End Cap finial past each end of the headrail.

*Estate Valances are available on Outside Mount only.

SIZE LIMITATIONS

	One Way Minimum Width	Dual Stack Minimum Width	Center Stack Minimum Width	One Way, Dual, and Center Stacks Maximum Width	Minimum Height	Maximum Height
Inside Mount (IM)	13 $\frac{3}{8}$ "	25 $\frac{7}{8}$ "	48"	144"	12"	144"
Outside Mount (OM)	13 $\frac{3}{8}$ "	25 $\frac{7}{8}$ "	48"	144"	12"	144"

FACTORY DEDUCTIONS*

	Inside Mount	Outside Mount
Headrail	$\cdot\frac{1}{4}$ "	0"
Fabric	$\cdot\frac{1}{4}$ "	0"

* An extra 5/8" deduction on the vane length will be taken when an inside mount with a fabric valance is ordered.

OUTSIDE MOUNT VALANCE RETURN MEASUREMENT

Standard valance return is 2 $\frac{3}{4}$ ". If a longer return is needed, measure the inside return length of the valance as shown and provide measurement. See page 12 for minimum and maximum valance return length as well as other valance measurements.

Critical Dimensions

CONTROL LENGTH

Shade Height	Cordless Wand Length*
18" - 24"	12"
24 1/8" - 36"	20"
36 1/8" - 96"	33"
96 1/8" - 108"	47"
108 1/8" - 120"	59"
120 1/8" - 132"	69"
132 1/8" - 144"	80"

*Length of cordless wand is from top of headrail.

Shade Height	Cord Length
Less than 19"	12"
19 1/8" - 96"	7" less than total length
Over 96"	90"

Tilt chain is standard 42" unless otherwise specified.

INSTALLATION BRACKETS AND VALANCE CLIPS

Included with Shade.

Up to 36"	3	3
36 1/8" to 66"	4	4
66 1/8" to 96"	5	5
96 1/8" to 126"	6	6
126 1/8" to 144"	7	7

HEM SIZE

Top Hem	2"
Bottom Hem	1"

Light Control Index

Each collection is rated for light control. This convenient indicator can be found next to the Available Colors grid on each pricing page.

NOTE: For enhanced light control and privacy, utilize Outside Mount installation with required top (3") and side (4") overlap. See page 4 for Outside Mount requirements.

Cleaning Guide

Routine care of Ambiance® Sheers with Room Darkening will allow the shade to provide elegance and versatility for years of enjoyment.

Routine Maintenance

Periodic dusting will keep the shade looking clean and new. For many shades this will be the only cleaning required.

Stain Removal

Should the shade become soiled, it may be necessary to spot clean. Gently dab the stain with lukewarm water and add a mild detergent if needed. Careful blotting of the fabric should avoid creasing or wrinkling. With any detergent solution, always test for colorfastness on an inconspicuous area.

Heavier Cleaning

Occasionally it might be necessary to remove excess dust accumulation by using the soft brush attachment of a vacuum cleaner.

The suggested cleaning instructions must be followed to maintain the lifetime limited warranty.

Features and Benefits

LIGHT CONTROL

Kirsch presents a beautiful window covering that functions as a light filtering drapery and a room darkening blind all in one. Perfect for adding ambiance to formal rooms or casual settings, Kirsch Ambiance Sheers with Room Darkening are the most versatile window covering for any décor. Choose fabric, valance and control options that fit any room.

Light Filtering

Fabrics filter light when vanes are open

Room Darkening

Vanes block light when vanes are rotated closed

Options and Upgrades

CORDLESS WAND CONTROL - STANDARD

Cordless Wand Control eliminates dangling cords and chains, providing safe and smooth operation.

- One-control convenience - vanes are rotated and traversed with the wand
 - Streamlined appearance
 - Increases safety
 - Sizes listed on page 6
 - Available in styles and finishes below
- Not available with BackStacker® feature*

CORDED CONTROL - OPTION

- Available at no charge
- Required for BackStacker®
- Standard cord color is Ivory
- Standard tilt chain color is Silver

Ambiance™ Sheers with Room Darkening

BACKSTACKER® OPERATING SYSTEM

With Ambiance standard operating system, the fabric stacks in front of the window. With Kirsch exclusive BackStacker on Ambiance Sheers with Room Darkening, the fabric stacks neatly on the outer edge of the window, preserving the view and enhancing the enjoyment of the natural scenery. BackStacker extends the life of your shade by reducing pull on the draw cord. You will achieve optimum functionality with one way stack, dual stack and reverse stack options. BackStacker is not available with center stack option or cordless wand control.

Standard Operating System

vanes collect in the middle of the window

Ambiance™ with BackStacker®

vanes collect at side of window providing an uninterrupted view

How To Use The Chart:

1. Select stack type

- One Way
- Dual

2. Select appropriate clear opening width

3. Order shade width in far left column

Note: Dual stack requires even number of vanes

*Clear opening chart is for outside mount only.

*For center stack, use one way stack column.

Replacement Vane Packs

Replacement vane packs may be ordered to replace damaged vanes or for a decorating change. Easily update your window decor by simply switching your current vane pack with a new vane pack. When ordering, indicate the style of shade and the width and height needed, including headrail.

Note: There is no guarantee of color match to the original order.

Terms and Conditions

Order Processing

Telephone Orders

Verbal orders are accepted as the dealer's responsibility. Each order will be repeated back by the Customer Service Representative. In certain instances, we may require written orders.

Duplicated Orders

All orders are confirmed after entry into our system. Customer Service is not responsible for duplicate orders caused by a written order following a telephone order or duplicate faxes.

Changes and Cancellations

All products are custom-made to your specifications under tight deadlines. Once production has begun on your order, changes and cancellations cannot be made.

Contract Orders

All Contract Orders must be processed through Contract Customer Service at 1-800-826-8021.

Freight

- Shipments outside the continental U.S. are subject to freight charges.
- Chargeable parts and returns for repair are subject to freight charges.

Pricing and Terms

All prices are subject to change without notice. Until credit is approved, terms are cash with order. Standard terms are Net 30 days from invoice date.

Claims and Returns

Defective Merchandise

All manufacturing defects must be reported to Customer Service within 30 days of receipt of blinds. We may require the return of defective blinds prior to repair or replacement.

Incorrect Merchandise

If any part of your shipment was made incorrectly, please advise Customer Service within 30 days. A replacement will be made at no charge if the problem was due to Kirsch® error. If the problem was due to dealer or customer error, the original order and replacement order will be full charge.

Returns for Repair

Prior to return for repair, contact Customer Service. We will request the order number, date, purchase order number, and type of product. Arrangements for return will be made at that time with directions as to how the blinds should be returned. The package should be marked for easy identification both inside and outside, and should contain a written confirmation of the verbal repair instructions. Repairs should be packaged carefully. Product that has been mishandled or received in poor condition will be returned to the customer.

Chargebacks for unauthorized repairs or additional installation cannot be honored. All returns for repair are subject to freight charges.

Returns for Credit

Returns can be accepted only if prior authorization has been obtained from Customer Service. Authorization will include instructions as to how the merchandise should be returned. Unauthorized returns will be refused.

Freight Damage FedEx/FedEx Ground:

- If freight damage is visible, refuse the shipment. FedEx will inspect the damage and return to the shipping location. Contact Customer Service for further information.
- If freight damage is concealed, retain all packaging materials and contact Customer Service immediately (must be notified within 14 days).

Freight Damage Common Carrier:

- If freight damage is visible, refuse the shipment. The carrier will return the merchandise to the shipping location for inspection. Contact Customer Service for further information.
- If freight damage is concealed, retain all packaging materials and contact Customer Service immediately (must be notified within 14 days).

the kirsch[®] TRUST[™]

RISK-FREE EXCHANGE &
FULL 10-YEAR WARRANTY

At Kirsch, we're committed to making products and relationships that last. That's why we offer a product with a complete warranty and a no-risk exchange policy.

No Risk Exchange Policy

Whether you mis-measured or simply changed your mind, if you don't love your custom Kirsch for any reason, we'll exchange it within 30 days of receipt.

Full 10-year Warranty

Your investment will last. If any part of your custom Kirsch breaks or is damaged due to poor workmanship or defect within 10 years of purchase, we'll repair or replace it free of charge.
