How to Place an Order

STEP 1 Choose Your Shade Type

STEP 2 Choose Your Fabric and Color

STEP 3 Choose Your Options

How to Measure

INSIDE MOUNT (IM) INSTALLATION

TO FIND WIDTH

Measure exact distance between inside surfaces of window frame at the top, middle, and bottom, and use the narrowest width. **DO NOT MAKE ANY WIDTH DEDUCTIONS.** See page 6 for factory deductions.

TO FIND HEIGHT

Measure exact distance from inside surface at top of window to sill. If you prefer shade not to touch sill, deduct $\frac{1}{4}$ ". If there is no sill, measure height to point where shade is to reach.

OUTSIDE MOUNT (OM) INSTALLATION

TO FIND WIDTH

Measure exact distance between the outermost points where the shade is to be placed. This measurement should overlap each side of window frame by at least $1\frac{1}{2}$ ". Factory makes no deduction from your shade width dimensions.

TO FIND HEIGHT

Measure exact distance from where top of shade will be located to top of sill. If there is no sill or if shade is to overlap window frame, measure to point shade is to reach.

How to Measure Multiple Shades on One Headrail

INSIDE MOUNT

- A) Overall Shade Width—Measure the window's width at the top, middle, and bottom.
Order the narrowest measurement.
- B) Left Shade Width—Measure the width that you want the left shade to cover.
- C) Right Shade Width—Measure the width that you want the right shade to cover.
- D) Height—Measure the window from the top to the bottom for the desired height.
- E) Order the left shade first when placing the order.

NOTE: There will be a ½" gap between the fabric on the left and right shade to allow for shades to operate independently.

NOTE: The left shade width, plus the right shade width must equal the overall shade width.

NOTE: Corded Top Down/Bottom Up not available.

OUTSIDE MOUNT

- A) Overall Shade Width—Measure the desired width.
- NOTE:** For maximum privacy and window coverage, add an additional 3" to total width of window.
- B) Left Shade Width —Measure the width that you want the left shade to cover.
- C) Right Shade Width—Measure the width that you want the right shade to cover.
- NOTE:** The left shade width, plus the right shade width must equal the overall shade width.
- D) Height—Measure the desired height.
- NOTE:** For maximum privacy and window coverage, add at least 3" to overall height of the window.
- E) Order the left shade first when placing the order.

NOTE: There will be a ½" gap between the fabric on the left and right shade to allow for shades to operate independently.

NOTE: For standard shades, controls will be located on the left side of the left shade and the right side of the right shade.

NOTE: Fabrics cannot be seamed or overlapped.

NOTE: Corded Top Down/Bottom Up not available.

NOTE: On price grids where 2 on 1 headrail is required, note that 2 on 1 headrail surcharge applies.

Roman Shades

Critical Dimensions

These charts represent the amount of shade that is gathered at the top of the window when fully raised. The measurements in these charts include the stack of the fabric, the headrail and the bottomrail.

How to Use the Chart:

1. Find Fabric Collection
2. Determine Flat or Hobbled
3. Find Lift Option
4. Look to right to find stack height for specific shade height

Cleaning Guide

Care Instructions

A brush-type vacuum attachment or feather duster should be used for cleaning. If your shade should become stained, you may clean it by dabbing the spot with a sponge dampened with lukewarm water. Avoid contact with window cleaning products as these may discolor your shade. Ultrasonic cleaning is not recommended or covered by our warranty.

Color Variation and Fabric Repeat Information

Color lot variations may occur due to the process of color application. For the best color match, order all shades for a room at the same time. Pattern availability and color lot match between orders cannot be assured. Any variation in color is in accordance with industry standards.

Shades made from the stripe collections may differ slightly in the location of the vertical stripes from shade to shade. This is due to the location in the roll from which the fabric is cut for the shade. Fabrics will not be railroaded.

Options

DECORATIVE OPTIONS

Scallops

Decorative hems may be added to any Roman Shade by choosing from one of the styles shown to the right.

NOTES:

- Scalloped hems add approximately 4" to the standard Roman Shade stack height.
- Only available with shade width ≥ 26 ".
- Scallop must have trim. Please select coordinating trim color.

Decorative Trim

The trim is placed directly on the edge of the scallop while the 1" fringe hangs over the edge of the scallop. Please visit Kirsch.com for additional information and photography of trim colors.

TRIM

FRINGE

AVAILABLE COLORS

Black	20023
Cedar	20050
Gold	20051
Gray	20029
Rose	20053
Vanilla	20017
White	20018

VALANCE OPTIONS

Integrated Valance

The Integrated Valance comes standard and offers a clean look. This aluminum valance is color-matched and coordinated to the fabric.

Classic Valance*

This fabric valance offers a more traditional look and feel. Matches to the shade fabric.

*The height of the Classic Valance is 4 5/8"

INSIDE MOUNT

OUTSIDE MOUNT

Both valance options are available as inside mount and outside mount. If upgrading to a Classic Valance, returns are standard for outside mount. See chart on page 6 for valance depth dimensions.

Options

LIFT OPTIONS

Continuous Cordloop

- Perfect for large windows
- Eliminates dangling cords
- Cords remain at the same position regardless of shade position

NOTE: See each price grid for single shade width restrictions.

Top Down/Bottom Up

- The shade can be lowered from the top and raised from the bottom
- Separate controls on each side of the shade control the rails independently
- The shade is measured in the same way as a standard shade
- A Classic Valance is included at no additional charge
- See each price grid for specific width and height limitations

NOTE: For Corded Top Down/Bottom Up, left controls lift from bottom; right controls lower from top.

NOTE: Not available with 2 on 1 headrail.

NOTE: Not available with Continuous Cordloop.

Cordless

- Offers a clean, finished profile across all your windows without dangling cords
- See each price grid for specific width and height limitations

NOTE: Extension pole can be purchased separately to raise and lower shades that are hard to reach.

NOTE: All shades are shipped with a bottomrail handle for operation.

NOTE: Cordless shades need to be operated daily.

Cordless Top Down/Bottom Up

- For a clean appearance free of dangling cords, this shade can be lowered from the top or raised from the bottom
- The shade is measured in the same way as a standard shade
- The shade is shipped with two handles to raise and lower it
- A Classic Valance is included at no additional charge

NOTE: Extension pole can be purchased separately to raise and lower shades that are hard to reach.

NOTE: Cordless shades need to be operated daily.

MULTIPLE SHADES ON ONE HEADRAIL

- Ideal for wide framed windows
- Allows multiple shades to operate independently on one headrail

SPECIAL BRACKETS (must be requested at time of ordering)

HOLD-DOWN BRACKETS

Hold-Down Brackets are available for securing the bottomrail in position. These brackets can stop a shade from bouncing and loosely swinging if the shade is hung on a door. Available only on outside mount. Not available with Extension Brackets.

EXTENSION BRACKETS

Extension Brackets are available for outside mount shades. When the shade must operate around an obstruction, these brackets project the shade away from the wall, allowing easy operation. Not available with Hold-Down Brackets.

NOTE: Available in $\frac{3}{8}$ " to $2\frac{1}{2}$ ".
Please provide extension length at time of order.

SIDE MOUNT BRACKETS

Ideal for windows below transoms and arches. Alternative mounting method when no frame is available above the window for mounting. Inside mount only. Use only if shade dimensions fall within the following:

Maximum shade width: 48"
Maximum shade height: 72"

CORD CLEAT

Use with corded product to anchor cords neatly to the wall.

Troubleshooting Tips

Corded Roman Shades

PROBLEM	SOLUTIONS
Cordlock inoperable	Contact place of purchase for an authorized repair.

Cordless Roman Shades

PROBLEM	SOLUTIONS
Creeping or sagging  Friction Clip #HMSP0010	If you notice your shade is creeping up from the bottom or sagging from the top, contact Customer Service to receive friction clips and instructions to install into the spring motor.
Hangs unevenly	In some instances, the cords in your Cordless shade can become entangled. This problem can typically be solved by pulling the shade down completely. This will usually realign the cords. Prevention Tip: Always lift your shade from the middle rather than the sides, and do not lift too quickly, as this creates slack in the cords.
Does not operate smoothly	Look inside the headrail at the spring motor and check for friction clips. Remove one and/or all of the friction clips and check for improved operation.
Will not lift	Gently pull down on the bottomrail and then lift to reactivate the spring.

Continuous Cordloop Roman Shades

PROBLEM	SOLUTIONS
Frayed cordloop	Remove control end cap by lifting the tab on the top of the headrail that locks the cap into place. The cap should then easily pop off. Remove frayed cordloop by gently lifting the cord and turning the mechanism (Tip: a screwdriver inserted into the center of the mechanism allows for easy rotation). Start new cordloop into the pulley by placing the cord into one of the teeth of the gear. Rotate the cordloop into place. Replace control cap.

Terms and Conditions

Order Processing

Telephone Orders

Verbal orders are accepted as the dealer's responsibility. Each order will be repeated back by the Customer Service Representative. In certain instances, we may require written orders.

Duplicated Orders

All orders are confirmed after entry into our system. Customer Service is not responsible for duplicate orders caused by a written order following a telephone order or duplicate faxes.

Changes and Cancellations

All products are custom-made to your specifications under tight deadlines. Once production has begun on your order, changes and cancellations cannot be made.

Contract Orders

All Contract Orders must be processed through Contract Customer Service at 1-800-826-8021.

Claims and Returns

Defective Merchandise

All manufacturing defects must be reported to Customer Service within 30 days of receipt of blinds. We may require the return of defective blinds prior to repair or replacement.

Incorrect Merchandise

If any part of your shipment was made incorrectly, please advise Customer Service within 30 days. A replacement will be made at no charge if the problem was due to Kirsch error. If the problem was due to dealer or customer error, the original order and replacement order will be full charge.

Returns for Repair

Prior to return for repair, contact Customer Service. We will request the order number, date, purchase order number, and type of product. Arrangements for return will be made at that time with directions as to how the blinds should be returned. The package should be marked for easy identification both inside and outside, and should contain a written confirmation of the verbal repair instructions. Repairs should be packaged carefully. Product that has been mishandled or received in poor condition will be returned to the customer.

Chargebacks for unauthorized repairs or additional installation cannot be honored. All returns for repair are subject to freight charges.

Freight

- Shipments outside the continental U.S. are subject to freight charges.
- Chargeable parts and returns for repair are subject to freight charges.

Pricing and Terms

All prices are subject to change without notice. Until credit is approved, terms are cash with order. Standard terms are Net 30 days from invoice date.

Returns for Credit

Returns can be accepted only if prior authorization has been obtained from Customer Service. Authorization will include instructions as to how the merchandise should be returned. Unauthorized returns will be refused.

Freight Damage FedEx/FedEx Ground:

- If freight damage is visible, refuse the shipment. FedEx will inspect the damage and return to the shipping location. Contact Customer Service for further information.
- If freight damage is concealed, retain all packaging materials and contact Customer Service immediately (must be notified within 14 days).

Freight Damage Common Carrier:

- If freight damage is visible, refuse the shipment. The carrier will return the merchandise to the shipping location for inspection. Contact Customer Service for further information.
- If freight damage is concealed, retain all packaging materials and contact Customer Service immediately (must be notified within 14 days).
