WOOD

BLINDS

WHY OUR WOOD BLINDS?

- 1 3/8", 2" and 2 3/8" slat sizes accommodate any window size
- Choice of 50 natural stains and neutral solids; most styles crafted from durable basswood
- Decorative styles include Enhanced Grain, a tone-on-tone wood grain and Coastal, a wire-brushed texture with a stylish, weathered appearance
- A full range of control options, including cordless Lift & Lock™, cordless lift and RemoteTilt motorization
- Woven tapes in rich solids and elegant patterns allow for the perfect persona at the window

- Heavy-duty slim-design headrail and crash-proof cordlock provide smooth, easy operation
- Innovative, magnetic valance attachment system is secure, easy to install, and conveniently adjustable
- Valance returns are glued and finished by hand for a perfected look and time-saving installation
- Limited Lifetime Warranty ensures customer satisfaction

WOOD BLINDS BY ALTA

| FEATURES | | BENEFITS |
|----------------------------------|---|---|
| SLAT SIZES | | |
| 1 3/8", 2", 2 3/8" | | Selections for virtually any size window; from the smaller 1 3/8" to the larger scale 2 3/8" that offers optimal view-through and a more dramatic look. |
| SLAT STYLES | | |
| Smooth Finish | | Choice of natural stains and neutral solids, including gray- and taupe-based tones. |
| Enhanced Grain | | Refined grain styles with a rich tone-on-tone appearance. (2" only) |
| Coastal | | Beautiful abachi wood features a wire-brushed texture with a stylish, weathered appearance. (2" only) |
| VALANCE PROGRAM | | |
| Valance Styles | | Four style choices and two decorative options, Keystone and tape valance, complement any decor, from traditional to sleek and contemporary to a bolder, larger profile. |
| A Glued Returns | | Returns are glued and finished by hand for a perfected look and time-saving installation. |
| A Magnetic Valance Clips | | Innovative, proprietary magnetic clips make installation quick, easy and secure while also allowing for custom height and projection adjustments. Installers love them! |
| CONTROL OPTIONS | | |
| Standard Tilt/Lift Cords | | Superior tilting mechanism is designed for smooth, long-lasting operation. Blinds tilt open or closed by pulling on the cord tilt. Lift cord features break-away stop ball for added safety. |
| Wand Tilt | | Adjusts the blinds open or closed with a simple twist. (1 3/8" and 2" slats only) |
| A Cordless Lift & Lock |  | Press a button on the aluminum bottomrail to lift and lower the blind; release the button to lock blind into place. No lift cords enhance child safety. |
| Cordless Lift |  | Lifts and lowers shades with a light push or pull on the bottomrail. Eliminates lift cords making them safer in homes with children. (2" slats only) |
| RemoteTilt | | Battery-powered multi-channel radio frequency (RF) system tilts blinds open and closed with the touch of a button. The RF remote control operates the blinds at great distance and the multi-channel version allows for independent blind operation. Combine with wall switches or timer for total convenience. |
| DESIGN OPTIONS | | |
| Solid/Decorative Tapes | | Over 30 selections to accentuate the blinds; decorative tapes are woven, not printed. |
| LightsOut Routeless | | Slats have no route holes, which means reduced incoming light, increased privacy and better aesthetics. |
| Rounded Corners | | No-charge option that softens the blind's edges. |
| 2- or 3-on-1 Headrail | | Two or three blinds may be combined on one long headrail for flexible light control and beautiful unity. |
| HARDWARE AND INSTALLATION | | |
| Low Profile Headrail | | Strong enough to cover large windows, yet slim enough to reduce stack and allow more view. |
| A Metal Components | | Cordlock, tilter and barrels inside the headrail are metal, not plastic, for better performance and longer life. |
| Ladders | | Four strand ladders won't stretch, ensuring uniform slat alignment. |
| Tilter System | | Wheeled cord tilter and hexagonal tilt rod enable smooth operation and tight slat closure. |
| Trapezoid Bottomrail | | Provides contoured, modern look, improved slat tilting/rotation, and better closure. |

Certified Best for Kids when used with wand tilt
