

Honeycomb Shades

Top-Down/Bottom-Up Shades

TriLight Shades®

Tandem™ Shades

WE EXPANDED OUR INNOVATIVE CHILD-SAFE OPTION TO HORIZONTAL BLINDS.

Our Cordless Lift & Lock™ option has been a great success story when it comes to child-safe options, and we're pleased to offer its simple and smooth operation on horizontal blinds.

Similar to honeycomb, pressing the button on the aluminum bottomrail lifts and lowers the blind; releasing the button locks the blind into place. Cordless Lift & Lock is available as a surcharge option on the following blinds:

- Wood Blinds
- Faux Wood Blinds
- 1" and 2" Aluminum Blinds

TRIED & TRUE HONEYCOMB SHADES

Cordless Lift & Lock is a no-charge option on Alta Window Fashions Honeycomb Shades. You'll also find this certified Best for Kids option on the following configurations:

- TriLight Shades®
- Top-Down/Bottom-Up Shades (cords are placed at the far edges of the shade, making them virtually invisible!)
- Tandem™ Shades

When used in conjunction with the wand tilt, horizontal blinds with cordless Lift & Lock are certified Best for Kids, giving you even more child-safe window coverings available from Alta Window Fashions – a leader in window solutions for homes with small children and pets.
