BANDED
SHADES

BANDED SHADES

by Alta

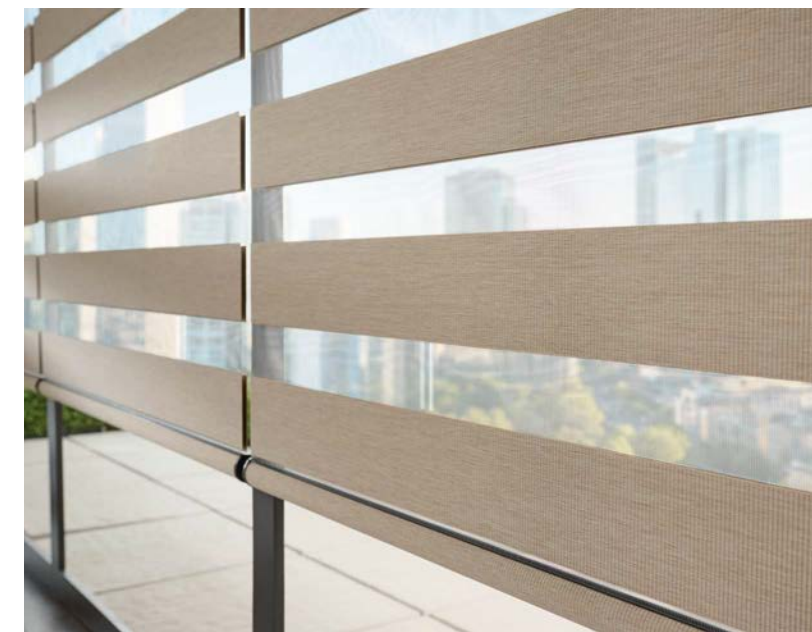

design simplified™

Innovation meets artistry with Banded Shades, shaping light to your whim... working like a roller shade, but behaving like sheers. Whether you crave pizzazz or privacy, alternating solid and sheer bands of fabric can give you a view, or bid the world adieu.

Welcome home.

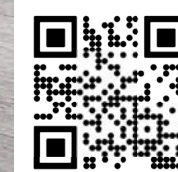

IT TAKES ALL SIZES

These big bands really swing, maximizing drama and boosting your view. Care to step into bold design? With a variety of band widths, colors, and opacity options, the only real question is: Wide not?

fabric finesse

Want a touch of texture? No problem. Both our sheer and solid bands are available in a range of textured fabrics that bring your design down to earth, while taking it to the next level. Let the bands play!

See for yourself how
Banded Shades work.

EXPAND YOUR VISION

When a modern floor plan boasts multiple windows, you need shades that play well together. Start with Banded Shades, then coordinate Roller Shades or Panel Track because each provides customized light control with an eye on design.

pro tip

In an open-concept design, light takes center stage and all that glass can warm things up. Our Banded Shades cool things down, reduce glare and protect your furniture and floors from harmful UV rays.

Banded Shades with Automation
LAVISH LIGHT FILTERING | Shadow White DS50-8402
Roller Shades with Automation and Panel Track with Wand Draw
LAVISH LIGHT FILTERING | Shadow White AF003-04

LET'S MOTOR

Enjoy complete control and sophisticated style, no strings attached. From our easy-breezy Cordless Lift shades to our affordable, rechargeable PowerWand™, to voice-activated automated systems, our cord-free options mean carefree control over your shades. Relax. We've got your windows covered.

play it safe

Our award-winning innovations put safety first so you and your family can put fun first. Thanks to our extensive research and elegant aesthetic, healthy boundaries never looked so good.

IT'S UNDER CONTROL

Experience the perfect symmetry of light and privacy in a single shade. Sheer bands are interspersed with solid ones, giving you more control. Align the solid band edge to edge for privacy. Shift them to alternate with the sheer bands for filtered light and a softer view. Now that's worth a double take.

Banded Shades with Automation
ENCORE ROOM DARKENING | Antique AR007-03

With bands open and the shade lowered, you get full window coverage, keeping energy costs down, while preserving your view.

With bands closed and the shade lowered, enjoy total control over light and privacy, all day, all night.

With bands closed, but the shade partially raised, keep the light where you want it, reducing glare and enhancing UV protection.

With bands open and the shade partially raised, you can really let the light in. Full view, partial privacy, it's all at your fingertips.

BLISS® ASSIST

Elegance meets ease with our tech-savvy BLISS® Automation...smart-home innovation that lets you control your shades from anywhere, from a smart device or remote. It'll change the way you see your shades.

Banded Shades with Automation
BURTON LIGHT FILTERING | Opal AF011-01

Discover how BLISS
enhances your home.

ADVENTURES IN AUTOMATION

Elevate your experience with our automation systems. From the wirefree convenience of rechargeable motors to the power of voice control operation, to being compatible with existing smart home technology, at home or away, automation makes life easier.

The ultimate in ease and convenience, our automated systems control all of your shades with a remote, an app on your smart device, or even your voice.

The PowerWand lifts and lowers shades with the touch of a button. PowerWand is affordable and rechargeable, too.

At Alta, we want our treatments to treat you well. That's why our focus is on safety, convenience, and reliability. Beautiful form meeting beautiful function, through stellar advancements in automation. Scan QR code to learn more about our latest control options.

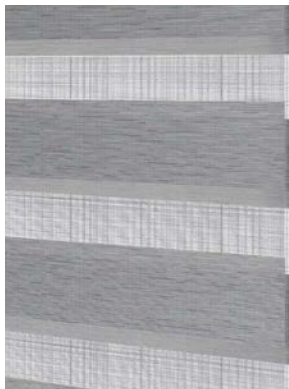

OTHER CONTROL OPTIONS

No tug required - achieve desired amount of privacy and light with effortless positioning. Lift and lower shades with a gentle push or pull on the bottomrail.

Operate the shade by pulling on a beaded chain to position the shade exactly where you want it. A tensioner keeps the loop at a constant length and eliminates dangling chains for enhanced safety.

Canada only: Continuous Loop Control with Stainless Steel Chain and SafeTGuard

⚠️ WARNING

⚠️ ADVERTENCIA

Window Blind Cord Strangulation Risk

Window Blinds with a damaged or loose tension device or retractable cord that fails to fully retract pose a stangulation risk to children. To avoid this potential strangulation risk, consider purchasing cordless products or products with inaccessible cords.

Riesgo de Estrangulamiento en Cuerdas de Persianas

Las persianas con un dispositivo tensor suleto o danado o con una cuerda retractable que no se ajusta completamente representan un riesgo de estrangulacion para los ninios. Para evitar un posbiel riesgo de estrangulamiento, considere comprar productos inalambricos o productos con cuerdas in accesibles.

⚠️ WARNING

STRANGULATION HAZARD - Young children can be strangled by cords. Immediately remove this product if a cord longer than 22 cm or a loop exceeding 44 cm around becomes accessible.

⚠️ MISE EN GARDE

RISQUE D'ÉTRANGLEMENT - Les enfants en bas âge peuvent s'étrangler avec des cordes. Enlevez immédiatement ce produit si une corde mesurant plus de 22 cm devient accessible ou si le contour d'une boucle de plus de 44 cm devient accessible.

FABRIC OPACITY OPTIONS

Light Filtering

- Allow natural light and a diffused view with moderate privacy from the outside, more so when the lights are off inside.
- Light filtering fabrics diffuse sunlight and help reduce glare. Provides a moderate degree of privacy as only shadows will be discernible.
 - Energy efficient, reduce cooling cost and lower environmental impact.
 - Gain more control over light levels in your space.

Room Darkening

- When you crave cozy, darker bedrooms, media rooms, or nurseries, our room-darkening fabrics provide solid bands that shut the world away when you need it.
- Room Darkening fabrics dramatically reduce light. Provides privacy against most direct light. Images, shapes and people are not discernible.
 - Help keep utility costs nice and low.

BAND SIZES

Small Bands

A smaller band is a great fit for most standard windows, and proportionally perfect.

Large Bands

When there's more window to cover, larger bands fill the space with finesse.

DESIGN OPTIONS

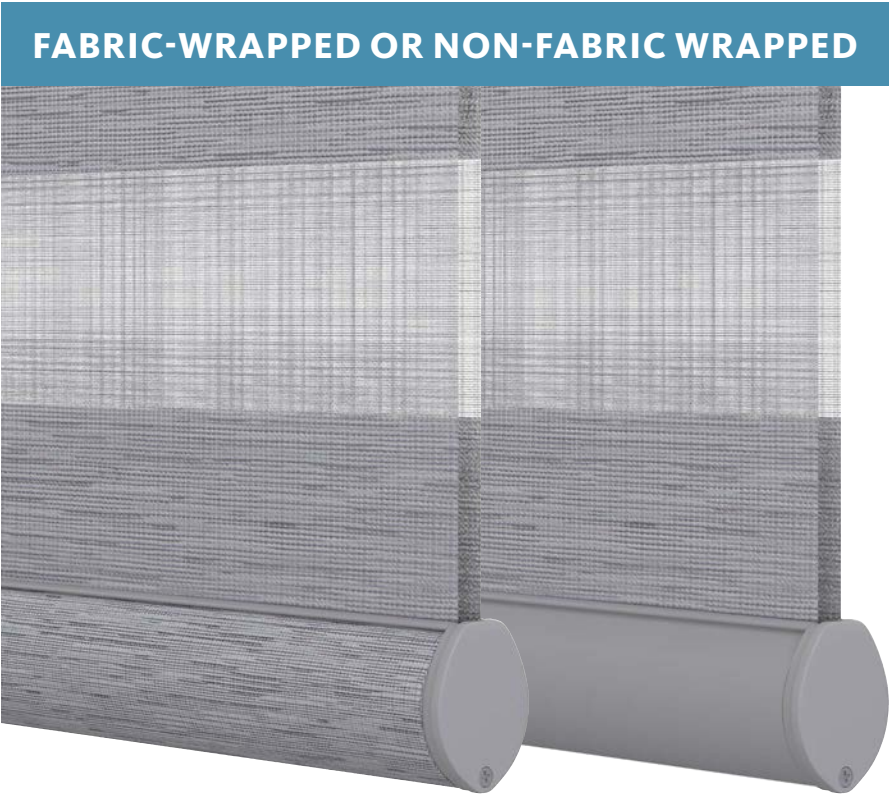

Banded Shades come with a standard fabric insert that matches your fabric selection for a seamless, polished look. Available in medium and large.

For a modern look, opt for a cassette without the fabric insert. Available in medium and large.

BOTTOMRAILS

Fabric-wrapped bottomrail is standard for a consistent, seamless look. Non-fabric wrapped bottomrail is an optional accent with modern appeal. Bottomrail color matches cassette color.

ADDITIONAL LIGHT CONTROL

Affordable PVC light block installs in minutes, offering additional privacy and room darkening. Available in 5 colors: white, gray, vanilla, bronze and black.

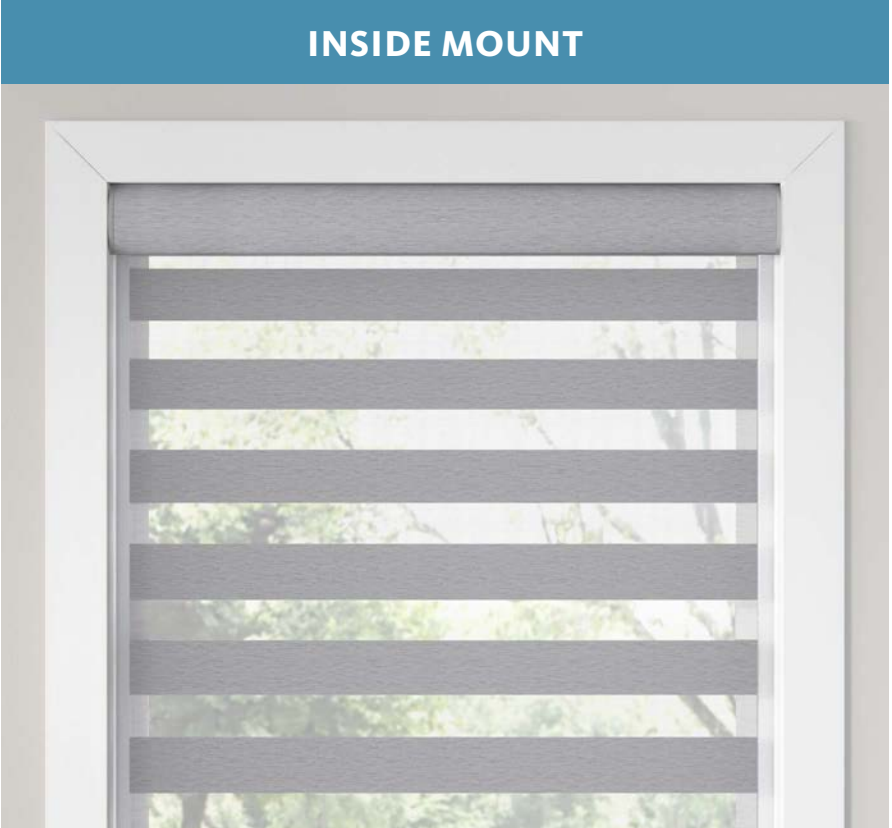

Two independently operating shades share the same headrail for a cleaner, more unified look. Ideal for wide-set windows and patio doors.

When the shade is lowered and the bands are closed, the bottomrail will rest on the sill as seen in the shade in the photo above. When the shade is lowered and the bands are open, the bottomrail will lift from the sill. The larger the band, the greater the distance from the sill.

MOUNTING OPTIONS

Specify inside mount if your window has the proper depth.

Specify outside mount to ensure the greatest amount of light control. Best for shallow depth windows or enhanced light control.
