VERTICAL BLINDS

by Alta

design simplified™

When your windows present a tall order, Alta's Vertical Blinds deliver classic style from top to bottom. Or actually, side to side.

Let's go window shopping.

Vinyl Vertical Blind with Safety Wand
SUMMER DAY | Tidepool VP89-01

THE LONG VIEW

Whether for intense temperature control or an intense decorative statement, Vertical Blinds take a linear approach. Sensible, yes. Boring, never.

WHEN TO CHOOSE VERTICAL BLINDS

- Blinds that glide to the side make for easy access with those expansive sliding glass doors.
- To see or not to see, that is the question. And with just the twist of a wrist, you can decide.
- Vinyl options are the ultimate in minimal maintenance. Wipe and go.
- Decorative textile choices mimic soft drapes without the dry cleaner.
- Choose our interlocking S-curve option for even more privacy, more energy efficiency and more, well... darkness. AKA blackout.
- Our heavy-duty headrail system keeps the vanes aligned in harmony and traversing quietly for a very long time.

Alta Advantage ENERGY EFFICIENCY

Vertical blinds boost energy efficiency over large spans of glass, and the interlocking design of S-Curve vanes helps keep both the room and your budget at more comfortable levels.

VANE STYLES

S-CURVE

The S-shape design provides an elegant, drapery-like appearance. The interlocking vanes block out more light than traditional curved vanes.

VINYL

Available in embossed, matte, smooth and deep-textured options. Vinyls are unique—providing total light control, privacy, functionality and fashion.

FABRIC

Choose from a variety of light-filtering fabrics for a gentle ambiance or insert into groovers and that same beautiful textile does double-duty as a blackout.

Sewn-in weights are standard on all fabric free hang blinds.

Optional vinyl insert groovers maintain the soft fabric look while increasing privacy, light control and energy efficiency. Neutral appearance from the outside—available in white and ivory.

MOUNTING OPTIONS

A standard rounded-corner valance with matching vinyl or fabric insert conceals the operating mechanism, adds elegance and provides a more tailored look.

CONTROL OPTIONS

Rotate vanes open and closed and move the blinds side to side across the window with a sturdy wand. Easy to use and ideal in homes with children and pets.

STACKING OPTIONS

Blinds draw to the left and stack on the left. Choose left or right side control position for standard; wand is right control.

Blinds open in the middle and vanes stack on both left and right sides. Choose left or right control position.

Blinds draw to the right and stack on the right. Choose left or right side control position for standard; wand is left control.

Child safety is serious business, which is why we use warning tags, labels, and other methods to communicate the potential hazards of corded window coverings. The warning shown here communicates the important message about cords being a potential strangulation hazard and suggest choosing cordless alternatives or products with inaccessible cords.

⚠️ WARNING

⚠️ ADVERTENCIA

Window Blind Cord Strangulation Risk

Window Blinds with a damaged or loose tension device or retractable cord that fails to fully retract pose a stangulation risk to children. To avoid this potential strangulation risk, consider purchasing cordless products or products with inaccessible cords.

Riesgo de Estrangulamiento en Cuerdas de Persianas

Las persianas con un dispositivo tensor suleto o danado o con una cuerda retractable que no se ajusta completamente representan un riesgo de estrangulacion para los ninos. Para evitar un posbiel riesgo de estrangulamiento, considere comprar productos inalambricos o productos con cuerdas in acessibles.

AND DID WE MENTION?

Alta stands by our products with a Limited Lifetime Warranty.

The image displays four vertical panels of a wood-grain vinyl flooring product. Each panel shows a different shade of wood grain, ranging from a light tan to a medium brown. The texture is highly detailed, mimicking natural wood grain patterns. A small, dark grey button with the text 'Color Chart' is positioned in the lower-left corner of the image area.
